- Changing operational requirements, addition of new data, regulatory and auditing will drive ongoing changes to the GIS and Water Serve Database application. Changes to these operational requirements are expected to continue through the remainder of the project.
- The images are current as of January 3, 2006.
- The enclosed CD/DVD GIS and Water Serve Database will not reflect the final dataset. Once final DOE/RFPO approval is obtained, we will forward a complete and accurate dataset to DOE for transfer to Legacy Management.
